Rescheduled

UNLOCK THE

secrets to

SOIL HEALTH

success in organic systems

You're invited

Join us for a morning of presentations and facilitated discussion focusing on field operations and their impacts on pest and nutrient management as growers work to achieve the soil health principle of reducing disturbance in organic systems.

Featured Speakers

DOUG COLLINS, Small Farms Extension Specialist, WSU

RORY MCDONNELL, Assistant Professor, OSU

NICK ANDREWS, Organic Extension Agent, OSU

JEN KUCERA, West Regional Soil Health Team Leader, USDA Natural Resources Conservation Service
