

Native Plant Society of Oregon

*Dedicated to the enjoyment, conservation, and study
of Oregon's native plants and habitats*

**Cheahmill Chapter invites you to enjoy free programs
in McMinnville during January, February, March and April 2019**

Grand Ronde Ethnobotany

— Jan. 24

David Harrelson, Grand Ronde tribal member and cultural resources manager, will speak about the Indian way of doing things, called Shawash Kagwe, and the tools used by native people to manage the landscape in the Willamette Valley.

Exploring the Natural History of Hawaii

— Feb. 28

Dr. Frank Howarth, former entomologist for Bishop Museum in Honolulu, will speak about his research on the native insects, plants, and animals that have evolved in

the isolated environment of Hawaii, including lava tubes.

Growing Native Plants in the Home Garden — March 28

Joyce Eberhart, senior faculty research assistant at OSU, will share how to determine what is a native plant, why we should plant them in our home gardens, and how to select and care for them. She will also speak about landscape design as well as her favorite books and websites on native plants.
